GLOSSARY

Membership Categories

- **Core Technologies:** SunGard SCT has chosen a few key software vendors to provide core or underlying functionality for its own products. SunGard SCT products run with or on top of the products in this membership category.
- **Campus Applications:** Members in the Campus Applications category deliver value-added applications that extend, enhance and integrate with SunGard SCT's main solutions to create a Unified Digital Campus for customers.

Campus Application partners are independent software vendors that develop applications and distribute and support those products directly or through other channels.

- **Infrastructure:** Members in the Infrastructure category provide hardware, software, database, network, and communication solutions that give SunGard SCT customers the flexibility to implement their solutions into a variety of environments to achieve the lowest total cost of ownership and improve operational efficiency.

Membership Levels

	<p>Collaborative Member Requirements</p> <p>To be a Collaborative Member, a company must:</p> <ul style="list-style-type: none"> ▪ Complete the online application and assessment process ▪ Offer software products that extend or enhance SunGard SCT products and that are a natural fit for integration with SunGard SCT product(s) ▪ Have a higher education focus (based on number of customers in the higher education industry) ▪ Have at least 10 mutual higher education customers with SunGard SCT ▪ Have at least 5 referenceable customers or have been referred to SunGard SCT by a customer ▪ Have implementation services and technical support adequate to meet customer needs ▪ Complete basic integration during first year of program membership ▪ Offer solutions that are not competitive with SunGard SCT offerings <p>SunGard SCT provides Campus Applications Members with the tools and information needed so that they can learn how to affect integration according to SunGard SCT best practices.</p>
---	--

	<p>Campus Application Members may have existing interfaces to SunGard SCT products. Those interfaces are developed, maintained, and supported only by those Members.</p>
	<p>Collaborative Advanced Member Requirements</p> <p>In addition to meeting the Collaborative Member requirements, a Collaborative Advanced Member must:</p> <ul style="list-style-type: none"> ▪ Complete Advanced level application process ▪ Have 20 mutual customers with SunGard SCT ▪ Have successfully implemented integrations at 10 customer sites ▪ Have at least 10 referenceable customers ▪ Demonstrate technical commitment to SunGard SCT ▪ Successfully complete end-point integration and testing (Campus Applications only) ▪ Agree to re-testing at the discretion of SunGard SCT (Campus Applications only) <p>Within the Campus Applications category, SunGard SCT tests the viability and consistency of the Advanced Member’s integration to certain SunGard SCT products. Advanced Members may also include companies with products to which SunGard SCT built and maintains an interface or integration.</p> <p>Campus Application Advanced Members have collaborated with SunGard SCT on integrations between their products and those of SunGard SCT.</p>
	<p>Collaborative Select Member requirements</p> <p>The Collaborative Select level is by invitation only. In addition to meeting the Advanced criteria, a company must:</p> <ul style="list-style-type: none"> ▪ Be an industry leader ▪ Have a proven track record with SunGard SCT and SunGard SCT customers ▪ Demonstrate business and technical commitment to SunGard SCT ▪ Participate in joint planning and development of product, marketing, and business plans ▪ Be able to sell to and support customers worldwide ▪ Establish a joint venture or strategic project that will drive new sales opportunities for both parties and speed time to market

	<ul style="list-style-type: none">▪ Co-invest in a certified integration program (Campus Applications only)▪ Agree to uniform joint services approach for product integration and Service Level Memorandum (Campus Applications only) <p>Campus Application Select Members and SunGard SCT actively work together to co-develop, support and market interfaces between our products.</p>

CORE TECHNOLOGIES

Business Objects

Collaborative Advanced Member

Member Products: Crystal Reports Developer

Relationship Description: Crystal Reports developer is sublicensed in each instance Campus Loan Manager is sold.

Company Description

Business Objects is a leading business intelligence (BI) software company. With more than 30,000 customers worldwide, including over 80 percent of the Fortune 500, Business Objects helps organizations gain better insight into their business, improve decision making, and optimize enterprise performance.

Solutions for: SCT Campus Loan Manager

EMC Documentum (SCT Luminis CMS and SCT Xtender Solutions)

Collaborative Select Member

Member Products: Documentum Web Content Management, Application Xtender Solutions

Relationship Description: Documentum Web Content Management is embedded in SCT Luminis Content Management and standalone product bundles. SunGard SCT markets, sells and supports Application Xtender Solutions as SCT Xtender Solutions.

Company Description

EMC is a leading provider of products, services, and solutions for information and storage management. EMC Documentum Application Xtender, an integrated imaging and report management solution, captures, organizes and delivers business-critical information. CMS, an integrated Web content management solution for SCT Luminis, streamlines the creation and management of content to deliver information via the Web.

Solutions for: SCT Banner, SCT Plus, and SCT Luminis

Microsoft

Collaborative Select Member

Member Products: MS Great Plains

Relationship Description: SunGard SCT is a value-added reseller of MS Business Solutions (Great Plains)

Company Description

Microsoft® imagines a new teaching and learning environment for higher education. We are committed to providing systems, technology and solutions enabling lifelong learners to realize their full potential. Microsoft's Windows Server System is the platform for many SunGard SCT solutions including SCT Matrix, SCT PowerCAMPUS, SCT PocketRecruiter, and SCT fsaATLAS.

Solutions for: SCT PowerCAMPUS

Oracle

Collaborative Select Member

Member Products: Oracle Application Server, Oracle Database

Relationship Description: SunGard SCT is one of the leading Oracle resellers within the higher education industry. SunGard SCT has the ability to resell, service and maintain a client's Oracle Database Programs (consisting of RDBMS EE, iAS EE, Developer Tools, DB Options) offering four licensing metric options in support of a client's Oracle database and application server requirements in running SCT Banner.

Company Description

Oracle is the world's largest enterprise software company. For 27 years, Oracle has been helping customers manage critical information. Our goal is to make sure that you spend less money on your systems while getting the most up-to-date and accurate information from them.

Ralph Notto and Associates

Collaborative Select Member

Member Products: EDI Smart

Relationship Description: Ralph W. Notto & Associates cooperatively developed and integrated EDI products, services, and electronic data solutions, resulting in the introduction of the SCT EDI.Smart solution, providing SCT Banner Student and Finance Systems with electronic data interchange capabilities.

Solutions for: SCT Banner and SCT Plus

RealObjects

Collaborative Select Member

Member Products: RealObjects edit-on Pro

Relationship Description: SunGard SCT uses RealObjects' edit-on Pro in the SCT Luminis Content Management Suite to deliver word processor-like features, empowering non-technical users to become content contributors without any knowledge of HTML or XML.

Company Description

RealObjects is a pioneering developer of easy-to-use, affordable and quick-to-deploy cross-platform WYSIWYG HTML/XHTML/XML editor solutions, which enable content authoring in Web- and Java-based applications.

Solutions for: SCT Luminis

Sun Microsystems

Collaborative Select Member

Member Products: Sun Message Broker

Relationship Description: Sun Message Broker is embedded in SCT Luminis products

Company Description

Sun is a leading provider of open network computing solutions to colleges and universities around the world, powering academic, research and high performance computing systems, campus administration, digital libraries and student instruction systems.

Solutions for: SCT Banner, SCT Luminis, SCT Matrix, SCT Plus, SCT PowerCAMPUS

The College Board

Collaborative Select Member

Member Products: PowerFAIDS, INAS, PARS

Relationship Description: SunGard SCT has held a long-standing partnership in support of The College Board's Institutional Needs Analysis System (INAS) and Packaging-Aid Resource System (PARS).

Company Description

The College Board is a national, nonprofit, membership association dedicated to preparing, inspiring, and connecting students to college success and opportunity. For over a century, the College Board has been a leader in higher education and the most respected source of research, consultation, testing, and information on college-bound students in the nation.

Solutions for: SCT Banner, SCT Plus, SCT PowerCAMPUS

CAMPUS APPLICATIONS

ACADEMIC ASSESSMENT

Nuventive

Collaborative Advanced Member

Member Products: TracDat, iWebfolio

Relationship Description: Nuventive provides products in our “Academic Solutions” category. These products include SCT TracDat and iWebFolio. SunGard SCT supports integration to SCT TracDat.

Company Description

Nuventive is a leader in technology and services for assessing, managing and improving education. Nuventive’s enterprise solutions — iWebfolio electronic portfolio system and TracDat planning and assessment software — equip individuals and organizations to meet demands for academic improvement by providing the structured framework for continuous quality and academic program improvement.

Solutions for: SCT Banner

Questionmark Corporation

Collaborative Advanced Member

Member Products: Questionmark Perception

Relationship Description: SCT PowerCAMPUS co-developed an interface to allow surveys and tests created in Questionmark Perception to integrate with SCT PowerCAMPUS.

Company Description

Questionmark assessment software enables educators and trainers to write, administer, and report on tests and surveys securely in Windows and Web environments. Committed to creating distributed learning environments in which multiple authors can work together, Questionmark works to ensure that its products offer seamless connections to learning management systems.

Solutions for: SCT PowerCAMPUS

ACADEMIC SCHEDULING & TIMETABLING

Ad Astra Information Systems

Collaborative Member

Member Products: Astra Schedule

Relationship Description: Ad Astra provides products valuable to the Unified Digital Campus and is a SunGard Higher Education Collaborative Member.

Company Description

Astra Schedule provides an enterprise web application that integrates room scheduling, event management, resource management, timetabling, calendaring, exam scheduling and reporting into one user interface. The patent-pending Platinum Analytics toolset adds retention/graduation rate enhancing decision support information from student demand-for-courses analysis. Results are contrasted with tentative schedules for schedule refinement. Astra Schedule is installed at over 575 institutions for higher learning and clients range in enrollment size from 800 to 50,000.

Solutions for: SCT Banner

CollegeNet

Collaborative Member

Member Products: Schedule 25 (S25), Resource 25 (R25)

Relationship Description: CollegeNet provides products valuable to the Unified Digital Campus and is a SunGard Higher Education Collaborative Member.

Company Description

CollegeNET, Inc. is a leading developer of web-delivered systems and services used by over 1200 colleges and universities worldwide. Universities depend on CollegeNET for campus space analysis, web admissions processing, alumni contribution, web-commencement registration, and web tuition processing. CollegeNET's Series 25 software suite (SCHEDULE25, X25, and R25) helps universities allocate campus space efficiently, manage workflow, discover opportunities for cost savings, and plan construction. CollegeNET's Applyweb services address nearly every service point in the college or university domain. Each service is fully branded to the client institution so that it can be seamlessly incorporated as part of the institution's web presence.

Solutions for: SCT Banner

**Event Management Systems by
Dean Evans & Associates**

Collaborative Member

Member Products: Event Management Systems

Relationship Description: Dean Evans & Associates provides products valuable to the Unified Digital Campus and is a SunGard Higher Education Collaborative Member.

Company Description

Event Management Systems (EMS), by Dean Evans & Associates, offers a full suite of room scheduling, event management and master calendaring software solutions that empower educational institutions to maximize resource utilization, streamline communications and reduce operating costs with customizable departmental, enterprise-wide and Web-based products. Colleges and universities use EMS to

reserve facilities efficiently without double-booking, manage meetings and events, create and maintain the academic schedule, provide an on-line master calendar of activities and classes, interface with their SunGard SCT system and much more.

Solutions for: SCT Banner

Infosilem

Collaborative Member

Member Products: TPHi Timetabler, TPHi Sectioner, TPHi Exam, TPH Event, TPH Event-Web

Relationship Description: Infosilem provides products valuable to the Unified Digital Campus and is a SunGard Higher Education Collaborative Member.

Company Description

Infosilem is the leader in providing an integrated and comprehensive Timetabling solution (Courses, Exams, Students and Events) to higher education institutions. Colleges and universities invest extensive resources and planning in the success of their academic programs. Effectively timetabling these activities has become increasingly important over the years. Since 1987, Infosilem has been known for its outstanding responsiveness and remarkable customer service in providing the solution to this growing challenge.

Solutions for: SCT Banner

ACADEMIC VERIFICATION

Miami University - DARS

Collaborative Member

Member Products: Degree Audit Reporting System (DARS); Course Applicability System (CAS)

Relationship Description: Miami University – DARS provides products valuable to the Unified Digital Campus and is a SunGard Higher Education Collaborative Member.

Company Description

Miami University has positioned its degree audit and transfer course evaluation system, DARS, to fit in the changing world of vendor-provided client/server student systems and World Wide Web delivery of student information. The 18-year evolution of the DARS program enables it to run within a large range of NT and UNIX environments hosting relational database systems.

Solutions for: SCT Banner and SCT Matrix

National Student Clearinghouse

Collaborative Advanced Member

Member Products: Various verification reporting solutions

Relationship Description: National Student Clearinghouse provides products valuable to the Unified Digital Campus and is a SunGard Higher Education Collaborative Member. SunGard SCT co-developed and supports interfaces for degree and enrollment verification.

Company Description

National Student Clearinghouse, the nation's largest provider of enrollment verification services, provides services to assist registrars' offices in the elimination of unnecessary and time-consuming paperwork: EnrollmentVerify, DegreeVerify, and the free student self-service enrollment verification certificate. A transcript ordering system is also available.

Solutions for: SCT Banner, SCT Plus, and SCT PowerCAMPUS

ADVANCEMENT

Harris Publishing

Collaborative Member

Member Products: Alumni Directories

Relationship Description: Harris provides products valuable to the Unified Digital Campus and is a SunGard Higher Education Collaborative Member.

Company Description

At Harris, we are dedicated to providing you with comprehensive, leading-edge solutions - directories in print and on CD, data research services to keep your data updated more frequently, and customized Internet services such as communities, online directories, broadcast email, ecommerce and more.

Solutions for: SCT Banner

CAMPUS CARD

NuVision Networks

Collaborative Member

Member Products: iAMECS Advanced Server (IAS)

Relationship Description: NuVision Networks provides products valuable to the Unified Digital Campus and is a Collaborative Member. SunGard SCT is collaborating with NuVision Networks on the Campus Card Interface to SCT Banner.

Company Description

NuVision Networks' One Card System helps enhance the college experience by providing access to multiple services on campus. NuVision's iAMECS Advanced System includes a complete meal plan, multiple debit accounts, event access and more. The system also includes our bundled Campus Center product, which provides a complete auto registration program, shopping module, voting component, laser

printing control and many other features. Our goal is to make the cardholder's life easier, therefore making the administrator's job easier.

Solutions for: SCT Banner

DOCUMENT MANAGEMENT

SSD Inc.

Collaborative Advanced Member

Member Products: Axiom (formerly Easy Admit & Easy Apply)

Company and Partner Description

Providing the power to automate your data entry, SSD introduces Axiom. Axiom offers the ability to fully integrate data from hand printed applications, e-forms, and tape loads directly to SCT Banner and XtenderSolutions. Axiom will validate data to ensure database compliance, as well as identify potential duplicate records and update existing records.

Solutions for: SCT Banner and SCT Plus

E-LEARNING

Blackboard Inc.

Collaborative Advanced Member

Member Products: Blackboard Learning System

Relationship Description: SunGard SCT offers customers who purchase the LDI for e-Learning the flexibility of integrating with multiple learning management system vendors.

Company Description

Blackboard Inc. was founded to transform the Internet into a powerful environment for the educational experience. The company offers a suite of enterprise software products and services that power a total "e-Education Infrastructure" for schools, colleges, universities and other education providers.

Solutions for: SCT Banner and SCT Plus

WebCT, Inc.

Collaborative Select Member

Member Products: WebCT Campus Edition, WebCT Vista

Relationship Description: SunGard SCT offers customers who purchase the LDI for e-Learning the flexibility of integrating with multiple learning management system vendors.

Company Description

WebCT is a trusted industry leader that has set international standards for e-learning systems in higher education around the globe. Headquartered in Lynnfield, Massachusetts, with customers in over 70 countries worldwide, WebCT provides highly flexible e-learning solutions that empower institutions across the educational spectrum with the ability to achieve their unique e-learning objectives.

Solutions for: SCT Banner and SCT Plus

E-PROCUREMENT

SciQuest

Collaborative Select Member

Member Products: HigherMarkets for SCT Banner

Relationship Description: HigherMarkets for SCT Banner by SciQuest enables customers to extend their SCT Banner Finance system to manage key procurement processes including catalog management, product selection, requisitioning, and order management with an integrated procurement solution.

Company Description

SciQuest helps customers gain greater control and visibility over their spending by integrating supplier content and enabling supplier connectivity. Supplier participation in the purchasing process helps organizations unlock more value from supplier relationships and drive greater user adoption.

By leveraging SciQuest's expertise in on-demand supplier management and procurement automation, customers can rapidly improve efficiency, capture savings and attain a rapid return on their procurement investment.

Solutions for: SCT Banner

FACILITIES MANAGEMENT

FAMIS Software, Inc.

Collaborative Member

Member Products: FAMIS Facilities Management suite

Relationship Description: FAMIS provides products valuable to the Unified Digital Campus and is a SunGard Higher Education Collaborative Member.

Company Description

FAMIS Software Inc, headquartered in Irvine, California, is the developer of FAMIS, a 100% Internet-enabled world-class Enterprise Facilities Management system. Founded in 1982, FAMIS Software, Inc. provides software products and services to help colleges and universities effectively maintain and operate facilities assets, manage space and control capital projects.

Solutions for: SCT Banner

FORM AND PRINT MANAGEMENT

Evisions Inc.

Collaborative Advanced Member

Member Products: FormFusion, IntelleCheck

Relationship Description: Evisions provides products valuable to the Unified Digital Campus and is a SunGard Higher Education Collaborative Advanced Member.

Company Description

Evisions works with many SCT Banner clients worldwide. Evisions' "FormFusion" document enhancement and distribution suite eliminates pre-printed forms, enhances printed output without modifying code, and can send documents to students, employees and vendors electronically. The Evisions "IntelleCheck" secure payment solution creates laser checks, e-mails direct deposit statements, and uploads bank reconciliation data into SCT Banner.

Solutions for: SCT Banner

Moore-Wallace, a Division of RR Donnelley

Collaborative Member

Member Products: Year End Tax Forms

Relationship Description: SCT Banner HR and SCT Plus HR work with Moore Wallace so that these systems comply with changes in Year End Tax Forms. Customers can then print data right from SCT Banner or SCT Plus on to these forms.

Company Description

Moore Wallace, an RR Donnelley Company, is a leading single-source provider of print management and outsourced communications, delivering to its customers one of the widest array of products and services at the lowest total cost. The company operates in a number of complementary business segments including: Forms and Labels, Outsourcing and Commercial Print. Our clients enjoy quality, guaranteed software compatibility and local service.

Solutions for: SCT Banner and SCT Plus

Pearson NCS

Collaborative Advanced Member

Member Products: Tax Relief Services, Basic and Full

Relationship Description: SunGard SCT built an interface that handles the time-consuming steps of printing and mailing 1098-Ts for these institutions. SCT Banner clients can export and send data to Pearson NCS for processing and mailing.

Company Description

Pearson NCS helps institutions comply with the requirements of the Taxpayer Relief Act of 1997. Pearson NCS offers support for postsecondary institutions through electronic data capture and assessment. Pearson's TRA Services provides a complete solution to the 1098-T reporting and customer service requirements imposed by the Taxpayer Relief Act of 1997. Schools may select from our suite of services the level of service most beneficial to them.

Solutions for: SCT Banner, SCT Matrix, SCT Plus, and SCT PowerCAMPUS

HOUSING & STUDENT LIFE

Adirondack Solutions, Inc.

Collaborative Member

Member Products: Housing

Relationship Description: Adirondack Solutions provides products valuable to the Unified Digital Campus and is Collaborative Member. SunGard SCT is collaborating with Adirondack Solutions on the Housing Interface to SCT Banner.

Company Description

Adirondack Solutions, Inc. is a respected leader in the field of housing and residential life administrative software. With unsurpassed technology and customer service, Adirondack's web-based, client-based and hand-held products equip its client base with robust, yet flexible and easy-to-use applications. Adirondack provides solutions for housing operations (traditional and apartment style), parking and vehicle registration, judicial affairs, Clery Act compliance, conference management, health and counseling services, telephone billing, and guest pass tracking.

Solutions for: SCT Banner

Residential Management Systems (RMS)

Collaborative Member

Member Products: RMS

Relationship Description: RMS provides products valuable to the Unified Digital Campus and is a Collaborative Member. SunGard SCT is collaborating with RMS on the Housing Interface to SCT Banner.

Company Description

RMS software for university housing and conferencing is a multi-functional, integrated room management system. It is a completely web-based, three-tiered system, featuring automatic assignments and more. Student Web integrates within the portal and enables students to manage assignments, demographic, financial information, and self-assignment.

Solutions for: SCT Banner

HUMAN RESOURCES

PeopleAdmin Inc.

Collaborative Member

Member Products: Applicant Tracking Module

Relationship Description: PeopleAdmin provides products valuable to the Unified Digital Campus and is a SunGard Higher Education Collaborative Member.

Company Description

PeopleAdmin is an Applicant Tracking vendor that provides web-based systems to automate the unique employment application and job requisition process used in Higher Education. PeopleAdmin provides software systems to over 140 leading colleges and universities to dramatically reduce the time and costs associated with managing employment applications, job requisitions and position descriptions.

Solutions for: SCT Banner

Windstar

Collaborative Advanced Member

Member Products: International Tax Navigator

Relationship Description: SunGard SCT collaborated with Windstar to create an interface in order to help SCT Banner customers to be in compliance with tax laws for foreign national employees.

Company Solution

Windstar provides intelligent international tax and immigration compliance software solutions with its content-laden International Tax Navigator® for tax residency, treaty analyses and 1042/1042-S processing, as well as its SEVIS-compliant VisaManager®.

Solutions for: SCT Banner

PARKING

T2 Systems

Collaborative Member

Member Products: PowerPark Flex

Relationship Description: T2 Systems provides products valuable to the Unified Digital Campus and is a SunGard Higher Education Collaborative Member.

Company Description

T2 Systems delivers technology-based management tools for parking. T2 PowerPark Flex serves as on-line parking data warehouse and streamlines tasks from accounts receivable to residential and other permits, citations, monthly parking, towing, appeals and more. Its open architecture developed in Microsoft.NET, and XML data exchange enables easier integration with other systems. T2 PermitNow issues parking permits and controls revenue at events. More than 300 municipalities, universities, hospitals, corporations and airports in North America use T2 Systems.

Solutions for: SCT Banner

PAYMENT PROCESSING

CORE Business Technologies

Collaborative Member

Member Products: One-Step Payment Processing System, iPayment

Relationship Description: CORE provides products valuable to the Unified Digital Campus and is a SunGard Higher Education Collaborative Member.

Company Description

Provide one-stop customer service to your students while enhancing your department's effectiveness. CORE Business Technologies' revenue processing modules improve Cashiering, Revenue Processing and departmental revenue transactions. Real-time interfaces to SCT Banner and SCT Plus, detailed student account review and self-service web payments are features that will streamline your department.

Solutions for: SCT Banner

infiNET

Collaborative Member

Member Products: QuikPAY

Relationship Description: infiNet is an ASP provider that provides products valuable to the Unified Digital Campus and is a member of the SunGard Higher Education Collaborative.

Company Description

infiNET provides innovative business services and software specifically to the higher education market. Established in 1997, infiNET has collaborated with many of the nation's colleges and universities to deliver superior automated billing, payment processing and eCommerce technology with real business solutions that improve services and reduce costs on campus.

Solutions for: SCT Banner

Official Payments (Formerly EPOS)

Collaborative Member

Member Products: Payment Gateway

Relationship Description: Official Payments provides products valuable to the Unified Digital Campus and is a SunGard Higher Education Collaborative Member.

Company Description

Since 1996, more than two million citizens have chosen Official Payments Corp.® to successfully process their government taxes and fees. Official Payments' proven, trusted Internet and telephone systems enable citizens to pay everything from tax bills to parking citations, using their credit or debit cards. Official Payments is the leading provider of reliable, secure electronic payment options and is a wholly owned subsidiary of Tier Technologies, Inc.

Solutions for: SCT Banner

SalePoint Inc.

Collaborative Member

Member Products: J-Point OLCS (On-Line Cashiering Solution)

Relationship Description: Salepoint provides products valuable to the Unified Digital Campus and is a SunGard Higher Education Collaborative Member.

Company Description

SalePoint offers fast and easy processing of student & departmental transactions. J-Point provides real-time lookups and postings to student financial applications, and integrates technologies such as credit/debit, check imaging and thermal/impact receipt printers. J-Point helps reduce lines and improves student service, audit controls and reporting.

Solutions for: SCT Banner

Sallie Mae

Collaborative Member

Member Products: Net.Pay

Available from: Sallie Mae

Relationship Description: Sallie Mae provides products valuable to the Unified Digital Campus and is a SunGard Higher Education Collaborative Member.

Company Description

As the nation's leading student loan provider, Sallie Mae is pleased to offer hosted eCommerce business solutions focused on the backend processing of student payments and bill resolutions.

Solutions for: SCT Banner, SCT Matrix

Shift4

Collaborative Advanced Member

Member Products: \$\$\$ ON THE NET

Relationship Description: SCT PowerCAMPUS co-developed an interface with Shift4 for transaction processing.

Company Description

Shift4 Corporation is an electronic payment technology company that supplies a combination of electronic payment accounting and high-speed financial transaction connectivity to diverse merchants worldwide, using the Application Service Provider (ASP) model.

Solutions for: SCT PowerCAMPUS

Tier VSA (Formerly EPOS)

Collaborative Member

Member Products: FirstLine Interactive Voice Response System

Relationship Description: SunGard SCT and EPOS/Tier VSA collaborated to create an interactive voice response system interface so that callers could get course registration, grade reporting, fee payment information out of SCT Banner or SCT Plus over the telephone.

Company Description

Tier Technologies Inc. purchased EPOS in 2004 and the EPOS IVR product has become the Tier VSA practice. As the leading higher education IVR supplier, Tier VSA provides voice-enabled and touch-tone telephone registration, grade and financial aid status inquiries, PIN-change, fee payment, and more to 450+ colleges and universities throughout the United States and Canada.

Solutions for: SCT Banner and SCT Plus

TouchNet Information Systems, Inc.

Collaborative Advanced Member

Member Products: TouchNet Voice Portal, T-Serve Intelligent Gateway, TouchNet Payment Gateway

Relationship Description: SunGard SCT collaborated with TouchNet to provide SCT Banner and SCT Plus customers with various integrated commerce solutions.

Company Description

TouchNet develops, licenses, and supports innovative Commerce Management Systems for Higher Education. More than 500 colleges and universities enrolling 4,000,000 students have selected TouchNet solutions to automate campus business transactions. TouchNet solutions use a centralized payment gateway to integrate credit card, debit card, and ACH payments into enterprise payment applications. TouchNet solutions streamline student billing and disbursements, enable tuition payment plans, enhance cashiering operations, and promote the development of campus e-commerce websites. As a result, institutions reduce overhead, avoid delays, eliminate bottlenecks, and save time and money, all while enhancing student services. TouchNet has helped customers streamline business-critical transactions since 1989.

Solutions for: SCT Banner and SCT Plus

REPORTING

Information Builders

Collaborative Advanced Member

Member Products: IBI FOCUS, IBI WebFOCUS, IBI Power Reporter

Relationship Description: Information Builders (IBI) provides reporting and business intelligence solutions for SCT Banner and SCT Plus reporting.

Company Description

Information Builders helps its customers turn data into business intelligence by delivering real-time information to staff, executives, students, faculty, alumni -- everyone an institution needs to reach. Information Builders is uniquely suited to provide business intelligence products and services to SCT Banner and SCT Plus clients because of their long-standing relationship with SunGard SCT.

Solutions for: SCT Banner and SCT Plus

INFRASTRUCTURE

AppWorx

Collaborative Select Member

Member Products: SCT Enterprise Scheduler by AppWorx

Company & Product Description

AppWorx automates SCT Banner, eliminating manual processes and manual error in procedures like Letter Generation, and accelerates the delivery of reports and critical data to the people who need them. And with AppWorx Web GUI, you can administer your system or start jobs from anywhere, with no client software. The AppWorx Enterprise Scheduler has been tested and certified for use with SCT Banner versions 5.1 and 6.1.

Solutions for: SCT Banner

CAST

Collaborative Advanced Member

Member Products: CAST Application Mining Suite

Relationship Description: CAST products (restricted version of CAST Application Mining Suite) are embedded in SCT Banner enlighten by CAST

Company Description

CAST Application Mining Suite is a software solution that automatically produces information about the inner workings of SCT Banner. Just as Data Mining improves business decisions, Application Mining improves technical decisions during the application lifecycle. Application Mining provides significant; useful information to IT teams responsible for the management, integration, upgrades, maintenance, and evolution of applications.
